Fitted quantile functions and densities—annual peak flood gauge heights (1920–2014)
Quantile Function
95% bootstrap interval
Empirical quantile
GEV (W₁ = 3.32%)
Log Metalog K=4 (W₁ = 2.63%)
Log Metalog K=10 (W₁ = 1.85%)
Log QFlex-A+ K=10 (W₁ = 2.37%)
Gauge height (ft)
Probability p
Probability Density Function
Histogram
GEV
Log Metalog K=4
Log Metalog K=10
Log QFlex-A+ K=10
Density
Gauge height (ft)
